

The 2nd International Conference on Smart Computing and Communication
(SmartCom 2017)

**CFP: The 2nd International Conference on Smart Computing and Communication
(SmartCom 2017)**

December 10th-12th, 2017, Shenzhen, China
Website: 2017.smart-com.org

Recent booming development of Web-based technologies and mobile applications has facilitated a dramatically growth of new techniques' implementations, such as cloud computing, big data, pervasive computing, Internet of Things, and social cyber-physical systems. Enabling a smart life has become a popular research topic with an urgent demand. Therefore, the International Conference on Smart Computing and Communication will focus on both smart computing and communications fields and aims to collect recent academic work to improve the research and practical applications. SmartCom 2017 will be held at Shenzhen University in China.

The scope of SmartCom 2017 covers a broad extent, from smart data to smart communications, from smart cloud computing to smart security. The conference is gathering all high-quality research/industrial papers related to smart computing and communications and targets at proposing a reference guideline for further research. **All accepted papers will be indexed by EI** and the proceedings will be published by Springer.

Topics of particular interest include, but are not limited to:

- | | |
|-----------------------------------------------------------------|---------------------------------------------------------------------|
| Security in new paradigms of smart data | Cloud computing and networking models |
| Cyber monitoring & incident response smart data | Heterogeneous architecture for cloud-based intelligent data |
| Digital forensics in intelligent data | Dynamic resource sharing algorithm for cloud-based intelligent data |
| Big data security, Database security | Load balance for cloud-based intelligent data |
| Intelligent database & business improvement | Cloud-based audio/video streaming techniques |
| Intelligent data mining, optimizations in big data | MapReduce in intelligent data |
| Social engineering, advance spear phishing | Visualization in intelligent data |
| Cyber threat intelligence in big data | Big data analytics and applications in mobile cloud computing |
| Security and fault tolerance for embedded or ubiquitous systems | Green cloud computing and big data |
| Cloud-based intelligent data and security issues | |
| Tele-health security in intelligent data | |

Committee

Honor-General Chair

Guoliang Chen, Chinese Academy of Sciences and Academy, China

General Chairs

Zhong Ming, Shenzhen University, China
Qing Yang, The University of Rhode Island, USA
Meikang Qiu, Pace University, USA

Program Chairs

Rui Mao, Shenzhen University, China
Zongming Fei, University of Kentucky, USA
Haibo Zhang, University of Otago, New Zealand

Important Dates

Paper Submission	July 31st, 2017 (extended)
Author Notification	October 1 st , 2017
Camera-ready Due	November 1 st , 2017
Author registration	November 1 st , 2017
Conference Date	Dec. 10th-12th, 2017
